About Us

Every business is different, and so are its challenges. At ContriveInsight, we work closely with our clients to understand their goals and build technology that solves real business problems. Whether it's custom software, websites, mobile apps, OTT platforms, AI solutions or intellectual property services, our focus is on delivering practical solutions that create long-term value. We believe in transparency, quality, and long-term partnerships.

Mission

Our mission is to help businesses grow by delivering reliable, high-quality, and cost-effective technology solutions that improve efficiency and support long-term success.

Vision

Our vision is to become a trusted technology partner for businesses while creating an environment where our team can learn, collaborate and grow.

Values

We believe in respect, ownership, transparency, continuous learning, quality, integrity and positive collaboration.

Services (Each service should have its own dedicated page)

1. **Digital Engineering**

Build Digital Products

Turn Your Ideas into Powerful Digital Solutions

Whether you're launching a new product or modernizing an existing one, we build digital solutions that are designed around your business goals. From websites and mobile apps to custom software and business portals, our team creates secure, scalable, and user-friendly applications that help you work smarter and grow faster.

Mobile App Development

Build intuitive Android and iOS applications that deliver seamless experiences, keep your customers connected, and support your business wherever they go.

Website Development

Create modern, responsive websites that strengthen your online presence, build trust, and convert visitors into customers.

Custom Software Development

Every business is unique. We develop software tailored to your workflows, helping you automate processes, improve efficiency, and scale with confidence.

Enterprise Portals

Simplify communication and collaboration with secure portals for employees, customers, vendors, students, and partners—all built to match your business requirements.

Let's build something that moves your business forward.

Manage Business Operations

Simplify Everyday Operations with Smart Business Solutions

Managing multiple systems shouldn't slow your business down. We help you streamline operations with integrated solutions that improve productivity, enhance collaboration, and give you better control over your business.

ERP Solutions

Manage finance, inventory, operations, procurement, and more through a centralized system that keeps your business running smoothly.

CRM Solutions

Build stronger customer relationships, manage sales pipelines, and deliver better customer experiences with a CRM designed around your business.

HRMS Solutions

Simplify employee management with tools for attendance, payroll, leave management, performance tracking, recruitment, and more.

Customer Portals

Provide customers with a secure, self-service platform where they can access information, track requests, and stay connected with your business.

Vendor Portals

Improve communication with suppliers and partners through a centralized platform for orders, invoices, approvals, and document sharing.

Student Management Systems

Help educational institutions manage admissions, academics, attendance, examinations, communication, and administration from one platform.

And Much More

From hospital management systems to dealer portals, inventory solutions, and industry-specific applications, we build solutions tailored to your unique business needs.

Work smarter with systems that grow alongside your business.

Improve with AI & Automation

Automate Processes. Gain Better Insights. Make Smarter Decisions.

Technology should do more than support your business—it should help you improve it. We help organizations automate repetitive tasks, connect business systems, and transform data into meaningful insights that drive better decisions.

AI Automation

Reduce manual effort and improve efficiency with AI-powered solutions, intelligent assistants, chatbots, and document automation.

Process Automation

Automate routine workflows, approvals, notifications, and repetitive business processes to save time and improve accuracy.

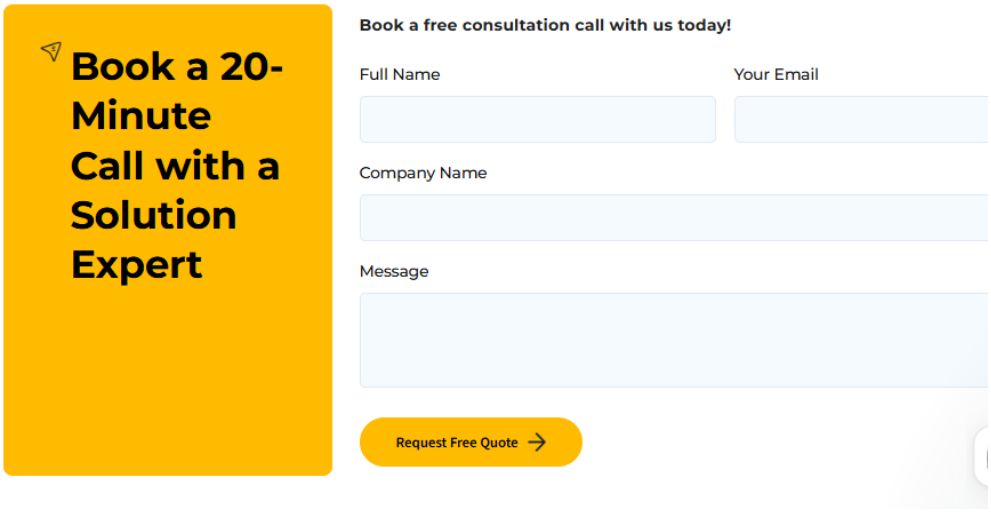

API Integration

Connect your existing applications and third-party platforms to create seamless workflows and ensure data flows effortlessly across your business.

Dashboards & Business Intelligence

Turn your business data into easy-to-understand dashboards and reports that help you monitor performance, identify opportunities, and make informed decisions.

Empower your business with technology that works smarter, so your team can focus on what matters most.

These field should be mandate and also need contact number

2. **OTT**

Actionable Insights Clearly Delivered, ---caps and big font

Driving Your Streaming Success

With Contriveinsight, get accurate feedback to make profitable changes in your streaming execution. Continuously improve the viewer experience with multiple layers of insights

1. **Track Your Streaming Performance with Complete Visibility [Need dashboard or analytics Image – right side of the content and color related to the contrivensight logo]**

Make confident business decisions with insights backed by real data, not guesswork. Our comprehensive analytics dashboard gives you a complete view of your streaming platform—from audience engagement and watch time to subscriptions, revenue, traffic, and marketing performance.

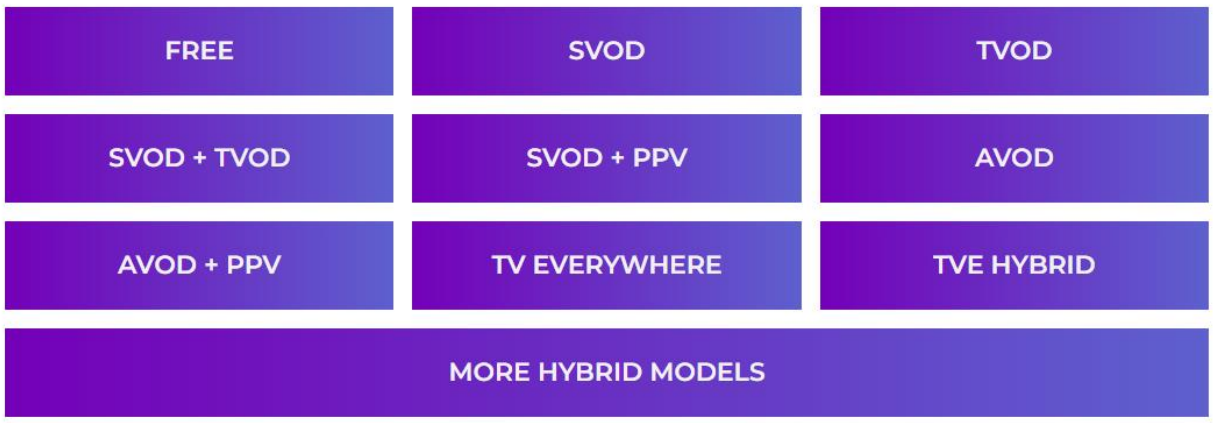

Looking for deeper insights? Our detailed reports help you understand viewer behavior, content performance, and audience preferences at a granular level. With actionable recommendations and easy-to-understand analytics, you can refine your strategy, improve user experience, and achieve your streaming goals with confidence

Monetization

Monetization Solutions That Grow with Your Platform

Subheading

Whether you choose subscriptions, pay-per-view, advertising, or a combination of revenue models, our platform gives you the flexibility to monetize your content in the way that best fits your audience and business goals.

Distribution

Bring Your Content to Audiences Everywhere

Great content deserves to be seen. We help you reach viewers across the globe by making your streaming platform available on the devices they use every day. From Smart TVs and mobile apps to tablets and web browsers, your audience can enjoy a seamless viewing experience wherever they are.

Request a Demo

Bifurcate the same same in different color

Help your audience enjoy your content wherever they are. Whether you're streaming live events or offering on-demand videos, we make it easy to deliver a consistent viewing experience across Smart TVs, mobile devices, tablets, web browsers, and other popular streaming platforms.

Instead of building and managing separate apps for every device, our unified platform lets you manage everything from a single place. Your viewers get a smooth, native experience on every supported device, while you save time, reduce development costs, and simplify platform management. You can also offer offline downloads, so your audience can continue watching their favorite content anytime, even without an internet connection.
